LANDSCAPE AND PROPERTY CARE

MAINTENANCE

For the past 20 years, SiteScape has created picture perfect landscapes for many properties.

Our team of specialists will help you plan the project that suits your property, budget, and timeline.

Considering your specific need, we include whichever element you wish for. We understand the importance of the design phase in your landscaping plan. We thoroughly analyze every aspect of the property and make recommendations based on your desired results. Our specialists work closely with you to arrive at the landscape plan that fully meets your expectations.

LANDSCAPE AND PROPERTY CARE

HARDSCAPE

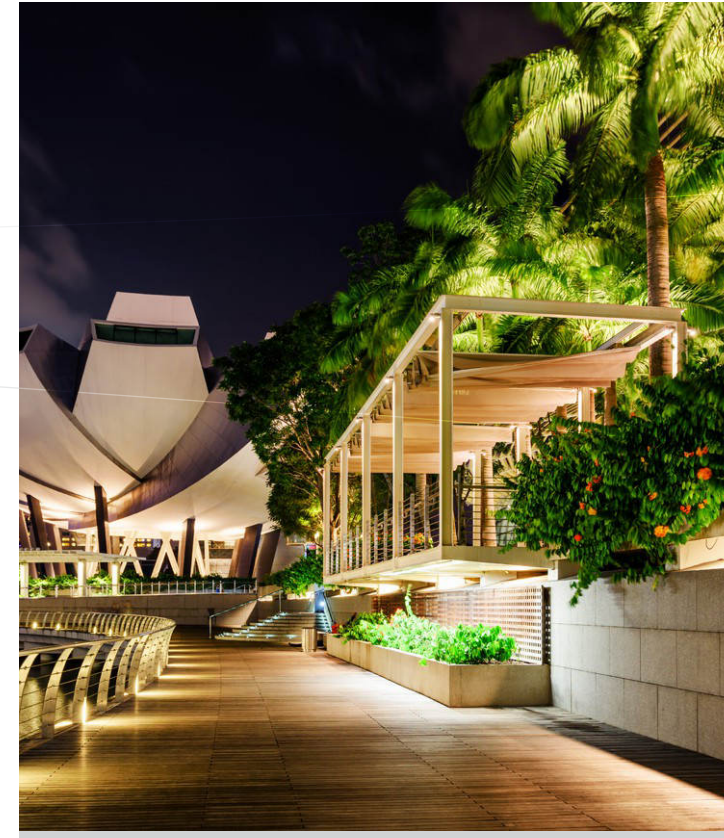

Asphalt, Stamped Concrete, And Wooden Structures

Asphalt operation services include asphalt & concrete roads, parking area, walkway construction & restoration services. We implement modern techniques with high quality and safety standards throughout our projects.

Stamped concrete is an essential part of garden paving finishing that will give an additional ambiance to your landscape. We take pride in producing beautiful and functional concrete art with exclusive designs and colors.

SiteScape strives to remain one of the leaders in outdoor structures. An outdoor structure like pergolas, decks, trellis, and gazebo will do wonders to your backyard.

Create a cozy and inviting space for you or your guests. Whether you're hoping to have company over, or if you just want to retreat and relax, somewhere nice, your wooden structure will always be waiting for you.

LANDSCAPE AND PROPERTY CARE

HARDSCAPE Stamped Concrete

Stamped concrete is an essential part of garden paving finishing that will give an additional ambiance to your landscape. We take pride in producing beautiful and functional concrete art with exclusive designs and colors.

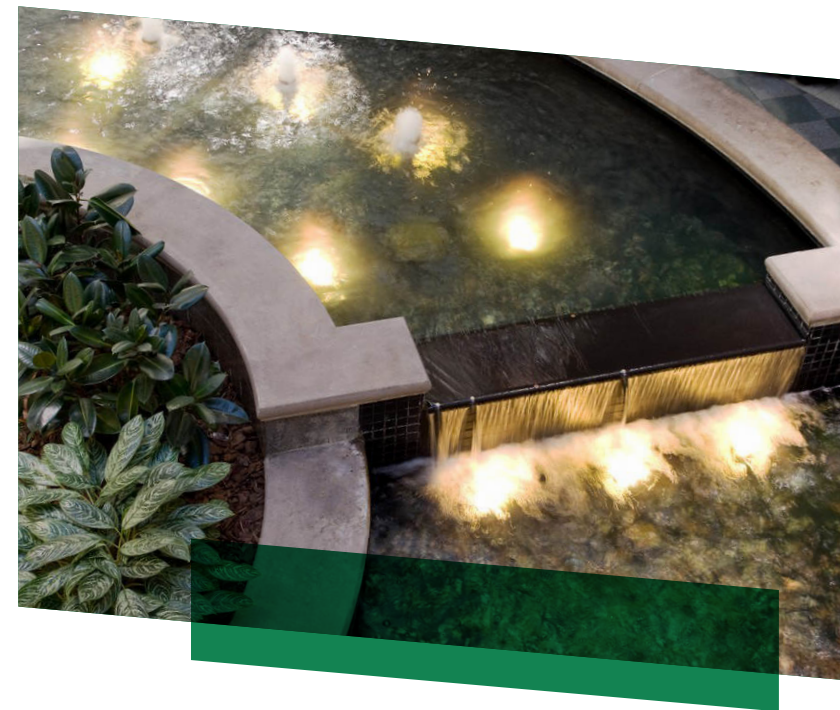

WATER MANAGEMENT

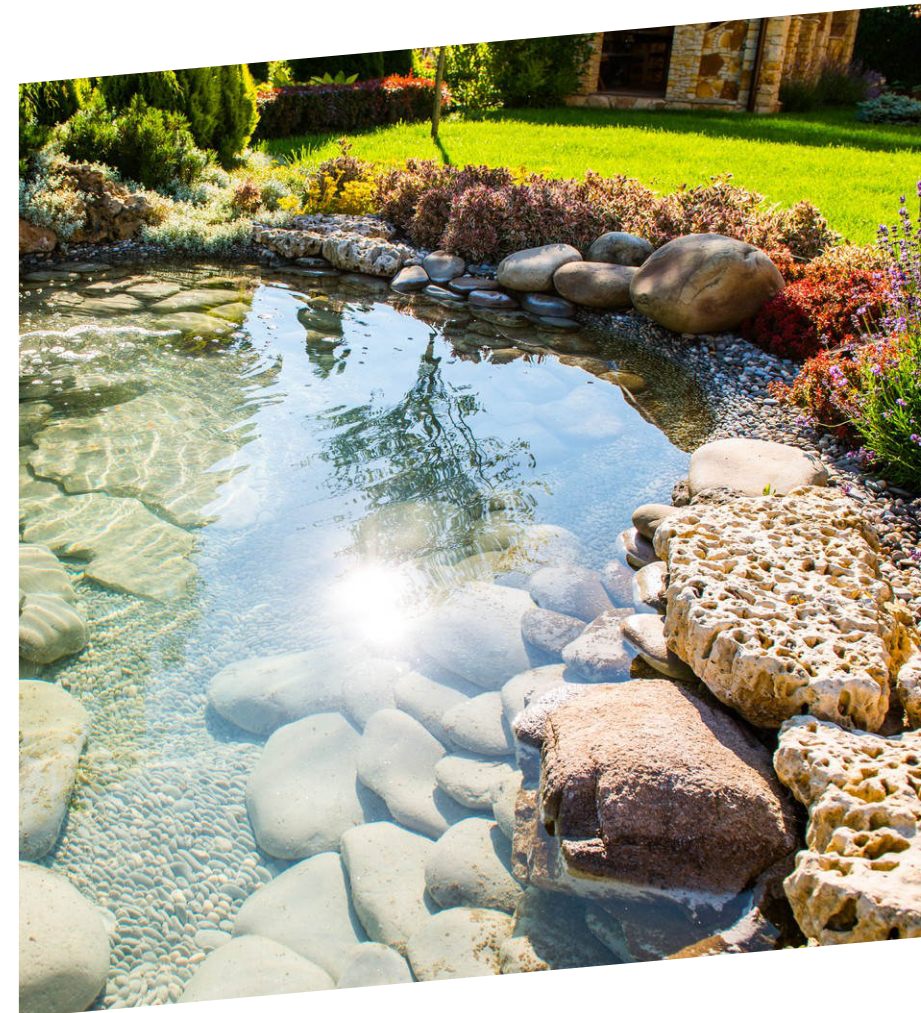

WATER FEATURES

Water features will add new dimensions to the beauty of your paradise. Not only can a water features provide visual interest in your landscaping, it will also appeal to the auditory sensations. The combination of sight and sound helps transform the

landscape into an inspiring and relaxation destination. Our experts will uplift your experience by incorporating lighting effects that will enhance your visual effects.

WATER MANAGEMENT

MISTING/FOG COOLING SYSTEMS

Misting systems are extensively used to modify temperature & humidity for a variety of applications. They offer cooling and soothing sensations in the surrounding areas by atomizing pressurized water when it evaporates.

Our fog systems are engineered to maximize cooling effects while maintaining cost effectiveness. They are commonly used to apply additives such as disinfectants, fertilizers, odor abatement and pest control. Look forward to enjoying the hottest days of the summer with our misting systems in your commercial or residential patios, gazebos, or pool areas to achieve total comfort, relaxation and enhance your outdoor experience.

IRRIGATION SYSTEM

Irrigation systems are a vital part of landscape care. At SiteScape, we pride ourselves with the highest quality in irrigation systems that optimize water usage, saving the environment and your money every time you turn it on. Oh, and yes, we stand by our work and we keep taking care of you even after the job is done. We offer repair and upkeep services for years to come.

PLANTSCAPE DIVISION

SiteScape Provides many solution such as: Hydroseeding , Land Nursery, garden center, garden maintenance, living walls, land control and vegetative establishment SiteScape brings knowledgeable people, purpose-driven products, and ground breaking technology on-site for you. Count on the world-class performance of SiteScape Products for your environment.

SiteScape owns and manages nurseries setup so we can stock a wide selection of plants ranging from the exotic to the more familiar tried and tested ornamental species with a selection of native local plants. We assist many of the landscape consultants and contractors to help select plants suitable for the region. Our range of plants include mature palms

and trees grown or imported to order, acclimatized and then released to the market with our guarantee. We offer a similar service for shrubs, vines, ground covers and seasonal flowers.

SiteScape is always searching for new ways to help make our customers planting projects as simple as possible. We come up with cost-effective & appropriate solutions for your planting requirements, whether it may be hard-to-find varieties or large quantities of plant & trees.

Carpentry Division to cater to the requirements of our customers. All garden products like Play houses, Wooden archways & bridges, Bird houses, fences, pergolas, gazebos, etc. are our much-in-demand products.

SiteScape can help you design and build your next play ground project. Whether you want a small playground splash pad for your community or a large multi-feature park, we have the experience to help you.

Turn plain walls into vertical gardens, and creative displays for both inside and outside your office or home. Any vertical surface can be transformed into a living wall of plants.
